Directions to Thornhill: BIG RIGS SEE BELOW!! If you have a trailer longer than a 3-horse slant, you cannot enter Thornhill from the south. It is highly recommended that you approach the direway from the NORTH as the angle is much easier than from the south. If your path to Thornhill is from the east, south or west and you are approaching the driveway while heading north on Ludlow Rd, you can PASS the driveway and continue traveling approx. ¾ of amile to the church on the right hand side of the road.   Use their parking lot to turn around and come on back! There is also a subdivision just past the church that can also be used as a turn around.
